MDI Medical Ltd WEEE Take-Back Policy

MDI Medical Ltd is committed to meeting the requirements of the European Union (Waste Electrical and Electronic Equipment) Regulations 2014. These Regulations require producers of electrical and electronic equipment to finance the takeback of WEEE resulting from products that we place on the Irish market. This helps us to ensure that WEEE is reused or recycled safely. In line with that commitment MDI Medical Ltd will take always back WEEE from our customers. Please contact us for further details and to arrange collections.

Customers also have a responsibility to ensure that WEEE is reused and recycled safely. Where a customer chooses not to return WEEE to MDI Medical Ltd, the equipment must not be disposed of with general waste. The crossed-out wheeled-bin symbol on the product indicates that WEEE must be collected separately and sent for appropriate treatment. WEEE contains hazardous substances which, if not managed and treated safely, can cause environmental pollution and harm human health.
